## Quality of Service Architectures for Wireless Networks: Performance Metrics and Management

Edited By: **Sasan Adibi**, Research In Motion (RIM), Ltd., Canada; **Raj Jain**, Washington University in St. Louis, USA; **Shyam Parekh**, Alcatel-Lucent, USA; **Mostafa Tofighbakhsh**, AT&T Labs, USA

### Table of Contents:

*Chapter 1: Introduction*

Sasan Adibi, Research In Motion (RIM), UK  
Raj Jain, Washington University in St. Louis, USA  
Shyam Parekh, Alcatel Lucent, USA  
Tom Tofigh, AT&T Bell Labs, USA

### Section I. Broadband

*Chapter 2: Quality of Services in UMTS Mobile System*

Jahangir Dadkhah Chimeh, Iran Telecommunication Research Center, Iran

*Chapter 3: QoS Architecture of WiMAX*

Rath Vannithamby, Intel Corporation, USA  
Muthaiah Venkatachalam, Intel Corporation, USA

PREMIER REFERENCE SOURCE

**Quality of Service  
Architectures for  
Wireless Networks**

Performance Metrics and Management

ISBN: **978-1-61520-680-3**

Hard Cover

Publisher: **Information  
Science  
Reference**Release Date: **January 2010**Pages: **408**List Price: **\$180.00**

**Authoritative -  
Innovative -  
Comprehensive**

*Chapter 4: Cross -Layer QoS Architecture: The WiMAX point of view*

Floriano De Rango, University of Calabria, Italy  
Andrea Malfitano, University of Calabria, Italy  
Salvatore Marano, University of Calabria, Italy

Perpetual Access:

**\$270.00**

[add to cart](#)

*Chapter 5: Quantifying Operator Benefits of Wireless Load Distribution*

S. J. Lincke, University of Wisconsin-Parkside, USA  
J. Brandner, University of Wisconsin-Parkside, USA

Print + Perpetual Access:

**\$360.00**

[add to cart](#)

## **Section II. Resource Management**

*Chapter 6: Delay-based Admission Control to Sustain QoS in a Managed IEEE 802.11 Wireless LANs*

A. Ksentini, University of Rennes, France  
A. Nafaa, University College Dublin, Ireland

*Chapter 7: Resource Allocation and QoS Provisioning for Multi-User Wireless Relay Networks*

Long Bao Le, Massachusetts Institute of Technology, USA  
Sergiy A. Vorobyov, University of Alberta, Canada  
Khoa T. Phan, California Institute of Technology, USA  
Tho Le-Ngoc, McGill University, Canada

*Chapter 8: User Based Call Admission Control Algorithms for Cellular Mobile Systems*

Hamid Beigy, Sharif University of Technology, Iran  
M. R. Meybodi, Amirkabir University of Technology, Iran

*Chapter 9: Admission Control and Scheduling for QoS Provisioning in WiMAX Networks*

Juliana Freitag Borin, University of Campinas, Brazil  
Nelson L. S. da Fonseca, University of Campinas, Brazil

*Chapter 10: Advancements on Packet Scheduling Schemes for Multimedia Broadcast-Multicast over Hybrid Satellite-terrestrial Networks*

Hongfei Du, Simon Fraser University, Canada  
Jiangchuan Liu, Simon Fraser University, Canada  
Jie Liang, Simon Fraser University, Canada

## **Section III. Mobility**

*Chapter 11: Quality of Service Issues in Micro-Mobility Enabled Wireless Access Networks*

A. Dev Pragad, King's College London, United Kingdom

Vasilis Friderikos, King's College London, United Kingdom  
A. Hamid Aghvami, King's College London, United Kingdom

*Chapter 12: Handover analysis and Dynamic Mobility Management for Wireless Cellular Networks*

Ramon M. Rodriguez-Dagnino, Tecnologico de Monterrey, México  
Hideaki Takagi, University of Tsukuba, Japan

*Chapter 13: Supporting multiple quality-of-service classes in IEEE 802.16e handoff*

Melody Moh, San Jose State University, USA  
Teng-Sheng Moh, San Jose State University, USA  
Bhuvaneswari Chellappan, San Jose State University, USA

*Chapter 14: QoS in Vehicular Communication Networks*

Robil Daher, Rostock University, Germany  
Djamshid Tavangarian, Rostock University, Germany

#### **Section IV. Multimedia**

*Chapter 15: Correlating Quality of Experience and Quality of Service for Network Applications*

Mihai Ivanovici, Transilvania University of Brasov, Romania  
Răzvan Beuran, National Institute of Information and Communications Technology, Japan & Japan Advanced Institute of Science and Technology, Japan

*Chapter 16: Quality of Experience (QoE) versus QoS in Video Transmission*

André F. Marquet, WIT-Software, Portugal  
Jânio M. Monteiro, University of Algarve/ INESC-ID, Portugal  
Nuno J. Martins, Nokia Siemens Networks, Portugal  
Mario S. Nunes, IST/INESC-ID, Portugal

*Chapter 17: Video Distortion Estimation and Content-Aware QoS Strategies for Video Streaming over Wireless Networks*

Fulvio Babich, University of Trieste, Italy  
Marco D'Orlando, University of Trieste, Italy  
Francesca Vatta, University of Trieste, Italy

*Chapter 18: Perceptual Quality Assessment of Packet-Based Voice Conversations over Wireless Networks: Methodologies and Applications*

Sofiene Jelassi, University of Sousse, Tunisia and University of Pierre et Marie Curie, France  
Habib Yousseff, University of Sousse, Tunisia

Guy Pujolle, University of Pierre et Marie Curie, France

*Chapter 19: Quality of Service Provisioning in the IP Multimedia Subsystem*

Richard Good, University of Cape Town, South Africa

David Waiting, Telkom South Africa Ltd, South Africa

Neco Ventura, University of Cape Town, South Africa

**Section V. Ad-Hoc/Mesh**

*Chapter 20: QoS Routing in Mobile Ad hoc Networks*

R. Asokan, Kongu Engineering College, India

A. M. Natarajan, Bannari Amman Institute of Technology, India

*Chapter 21: QoS and Energy-Aware Routing for Wireless Sensor Networks*

Shanghong Peng, University of Guelph, Canada

Simon X. Yang, University of Guelph, Canada

Stefano Gregori, University of Guelph, Canada

*Chapter 22: Queuing Delay Analysis of Multi-Radio Multi-Channel Wireless Mesh Networks*

Chengzhi Li, University of Houston, USA

Wei Zhao, University of Macau, China

*Chapter 23: Scalable Wireless Mesh Network Architectures with QoS Provisioning*

Jane-Hwa Huang, National Chiao-Tung University, Taiwan

Li-Chun Wang, National Chiao-Tung University, Taiwan

Chung-Ju Chang, National Chiao-Tung University, Taiwan

*Chapter 24: Towards Designing High-Throughput Routing Metrics for Wireless Mesh Networks*

T. Nyandeni, Council for Scientific and Industrial Research (CSIR), Defence, Peace, Safety and Security (DPSS), South Africa

C. Kyara, Council for Scientific and Industrial Research (CSIR), MERAKA, South Africa

P. Mudali, University of Zululand, South Africa

S. Nxumalo, University of Zululand, South Africa

N. Ntlatlapa, Council for Scientific and Industrial Research (CSIR), MERAKA, South Africa

M. Adigun, University of Zululand, South Africa

**Section VI. Future**

*Chapter 25: Quality of Service (QoS) Provisioning in Cognitive Wireless Ad-Hoc Networks:*

*Challenges, Design Approaches, & Open Issues*

Kok-Lim Alvin Yau, Victoria University of Wellington, New Zealand

Peter Komisarczuk, Victoria University of Wellington, New Zealand  
Paul D. Teal, Victoria University of Wellington, New Zealand

*Chapter 26: Evolution of QoS control in Next Generation Mobile Networks*

Alberto Diez Albaladejo, Fraunhofer FOKUS, Germany  
Fabricio Gouveia, Fraunhofer FOKUS, Germany  
Marius Corici, Fraunhofer FOKUS, Germany  
Thomas Magedanz, Technische Universität Berlin, Germany

*The premier reference source for information science & technology research*
